SYSTEM NAME	**INSPECTION, TESTING & CHECKING** PROCEDURE
SYSTEM NUMBER	RNSWP014
PURPOSE & SCOPE	This procedure also defines the mechanism for the monitoring and measurement of significant environmental and health and safety aspects associated with operations and to establish the process for inspecting and testing activities to verify that process inputs and outputs conform to specified requirements.
CONNECTING DOCUMENTS	RNSWF024 Inspection & Test Register, RNSWF025 Inspection Checklist

TASK	STEPS	FREQUENCY	POSITION
Competent Inspectors	A competent person is 'for any task, a person who has acquired through training, qualification or experience, or a combination of them, the knowledge and skills to carry out that task'. Competent persons may be staff members or external services providers. Managers identify and engage competent persons to undertake inspections.	As Required	HSEQ Team
Schedule Requirements Register	All Inspections, Monitoring and testing to be completed to correctly maintain the HSEQ system is documented within the **RNSWF024 Inspection & Test Register.** The register details the description, service provider/responsible staff member, frequency, due date and comments. All required tasks are to be loaded onto the register with a scheduled review/service date.	As Required	HSEQ Team
Using the register	The register in Smartsheet will automatically send an email to the responsible person for either completing the service or organising a contractor to complete the requirement. The last completed date must be updated when the inspections or requirements are completed.	As Required	HSEQ Team
Using contractors	All contractors used to complete schedule requirements must be approved as per **the RNSWP006 Contractor Management Procedures** and listed in the **RNSWF014Approved Contractors Register**.	As Required	HSEQ Team
