ENVIRONMENTAL POLICY

Resources NSW share responsibility for the quality of services supplied to clients, creating, and maintaining a safe and healthy working environment, and ensuring that our projects are completed in an environmentally responsible manner.

Resources NSW recognizes its responsibility to care for the environment. We will carry out service management activities in a manner that protects the environment.

To meet our environmental responsibility, We will:

- Maintain and update management systems to include environmental responsibility.
- Meet all legislative requirements and any license conditions.
- Minimize the detrimental impact of any design, construction, or operation on the environment.
- Monitor and manage our impact on the environmental to achieve continuous improvement.
- Implement resource conservation and waste minimization programs within the organization.
- Educate and involve staff in the achievement of our environmental objectives.
- Reduce pollution from company or contractors' activities.
- Inform clients, industry associations and the public of our environmental commitment.
- Ensure our goods and service providers reflect our environmental culture
- Compliance to ISO 14001

This EMS Policy along with our EMS targets & objectives is reviewed annually. Any improvements identified from the review will be included in the EMS Policy to increase effectiveness to ensure continual improvement.

The HSEQ Team is authorised to ensure that the requirements of this EMS Policy and the System are implemented. Any problems that cannot be resolved between departments or personnel shall be brought to my attention for final resolution.
